

The NEW FABARM XLR5 VELOCITY is the true definition of speed in motion and mechanics. The XLR5 VELOCITY AR has a revolutionary new adjustable rib that allows the shooter to have a more upright shooting profile to acquire targets rapidly. No other manufacturer has attempted it. FABARM has not only revolutionized Clay Target Shotguns, but has perfected the system. The FABARM XLR5 VELOCITY is not a hunting shotgun made into a target shotgun. FABARM engineers and American shooters helped create the XLR5 VELOCITY to be the best target shotgun on the market – Period. Features like the adjustable rib, lightning fast Pulse Piston® gas operation, weight adjustable magazine cap and integrated recoil reducer guarantees the VELOCITY will give the shooter a competitive edge.
